

Please complete this before you attend the workshop. Please think of one of your recent clients with aphasia when completing the form.

Personal information about the client: aged, educational level, gender, occupation, motivation, general life perspective, stroke history, other consequences of stroke, family situation, etc

What are the goal(s) that this client has been working on in speech and language therapy? For how long? With what success?

How were these goals set for the client (or identified)?

What tools, measures, assessments, interview questions have you used with this client?

What are you currently doing in therapy with this client?

How are you measuring the client's progress? And how often?
